

enginei Service Engineer

Company: Royston / enginei

Location: Nigeria

Job Type: Permanent, Full-Time

Division: enginei

About Us

Royston is a globally recognised diesel engine supply, service, and repair company that has been operating successfully in the marine and offshore market for over 40 years.

Headquartered in the UK, with regional bases in Singapore, Nigeria, and Australia, we have built a strong reputation for excellence in the industry.

enginei, a flagship product of Royston, is a cutting-edge ship energy management system that helps vessel operators improve fuel efficiency, track fuel consumption, and reduce emissions. Developed in the UK and exported worldwide, enginei has experienced rapid growth and continues to expand in the marine market. For more information, please visit:

Reporting Structure

Reports to: enginei Head Office (UK)

Supervised by: Royston West Africa Limited (Nigeria)

Role Purpose & Key Responsibilities

As a Service Engineer, you will play a crucial role in supporting global operations, providing technical expertise, and ensuring the successful installation, commissioning, and maintenance of enginei systems. The ideal candidate should possess strong technical, problem-solving, and customer-facing skills in the marine and offshore industry.

Key Responsibilities

- Conduct installation surveys, installations, and commissioning activities.
- Provide technical support, troubleshooting, and diagnostics to clients.
- Assist internal teams with technical and operational support.
- Develop and maintain technical documentation (e.g., Service reports, risk assessments, and reference materials).
- Supervise and support installation/fabrication teams during active projects.
- Ensure compliance with HSE standards during all operations.
- Handle ad hoc duties as required.

Location Requirement

- Preferred location is Warri, Delta State, Nigeria. Applicant from Warri or willing to relocate to Warri are encouraged to apply.

Registered Address Royston Limited • Unit 3-4 Walker Riverside • Wincomblee Road • Newcastle upon Tyne • NE6 3PF

T: +44 (0)191 2958000 • **F:** +44 (0)191 2958001

E: sales@royston.co.uk • www.royston.co.uk

Registered in England No. 1384241

VAT Registration No. GB621 3603 81

- The ideal candidate should be willing and able to travel out for jobs within and outside Nigeria.

Essential Criteria

- Strong knowledge of network communications and diagnostics.
- Experience with instrumentation communication protocols: RS232, RS485, Modbus, CAN bus, Ethernet.
- Excellent problem-solving ability.
- Strong management skills including motivation, training, and development.
- Exceptional communication skills (both written and verbal).
- Marine and Offshore industry experience.
- Health, Safety & Environmental (HSE) knowledge.
- Willingness to travel domestically

Desirable Criteria

- Background in Engineering (Electrical/Electronic preferred).
- Customer-focused mindset with strong interpersonal skills.
- Fluent in English language.

Minimum Qualifications & Experience

Education:

- Professional Certificate/NiTEC, Diploma, Advanced/Higher/Graduate Diploma, Bachelor's Degree, Postgraduate Diploma, or Professional Degree in Electrical/Electronic Engineering or equivalent.

Experience

- Minimum 2 years of experience in the marine industry, in the fields of mechanical, hydraulic and electronics.

Salary & Benefits

- Competitive salary
- Training and development programs.
- Overtime, travel and out of station allowances (where applicable).
- HMO
